CHARING-CROSS HOSPITAL.—Clinical remarks upon strangulated hernia, with cases, 83—Skin clinique: extensive rhinoscleroma rapidly developed, 328—Treatment of muscular rheumatism, 347—Syphilitic erythema of the face, 464—Exalted reflex irritability of spinal nerves of left side of body, 616

COLDSTREAM GUARDS HOSPITAL.—Epidemic cerebro-spinal meningitis; recovery, 189—Tubular aneurism of the abdominal aorta, 407—Lacerated gunshot injury of the palm of the hand; threatened tetanus; recovery, 687

"DREADNOUGHT" HOSPITAL SHIP. — Fracture of cranium, extending from occiput into posterior fossa of base; extensive laceration of right anterior lobe of cerebrum; death, 192

GREAT NORTHERN HOSPITAL.—A note on menorrhagia, 12—Treatment of ulcer of the leg, 47

GUY'S HOSPITAL.—Cases of wounds into joints, 11 —Treatment of ulcer of the leg, 47—A successful case of ovariotomy; the pedicle ligatured and dropped back into pelvis, with ligatures cut off close; ligatures subsequently discharged through an artificial anus at lower part of abdominal wound, 159 — Injury to the head; suppuration; meningitis, with aphasia; pyæmia, with abscess of liver, 225—Diseases of the breast in the male, 285—Laceration of the urethra, 378—Abdominal aneurism, probably of the cœliac axis, 407—Notes of autopsies of—1. Hemiplegia from embolus; renal disease. 2. Pulmonary apoplexy from embolus; phthisis. 3. Hypertrophy and dilatation of the heart; thickening of middle-sized systemic arteries, 498—Case of lepra anæsthetica (?), 538—Three cases of acute rheumatism treated by different methods, 618—Malignant disease of the bladder; dilatation of the urethra; removal of diseased mass; application of styptics, 660—Apoplexy at twenty-one years of age, from disease of cerebral arteries and hypertrophy of systemic heart, 719—Disease of right ankle-joint, removal of dead bone, recovery of a useful limb, 751—Cases of strangulated femoral hernia, 813

HOSPITAL FOR SICK CHILDREN, GREAT ORMOND-STREET.—Croup; tracheotomy; scarlet fever; recovery, 466

HOSPITAL FOR WOMEN, SOHO-SQUARE. — Treatment of the morning sickness of pregnancy, 256

KING'S COLLEGE HOSPITAL.—Treatment of ulcer of the leg, 48—Large ivory tumour of the upper jaw; excision; death, 191—Treatment of the morning sickness of pregnancy, 256—An ulce-

rated stump after amputation, 345—Treatment of muscular rheumatism, 348—Three cases illustrating the treatment of tight urethral strictures by external division and by the direct application of caustic potash, 464

LOCK HOSPITAL.—Statistics of the female outpatients from July 2nd to Dec. 31st, 1867, 130

LONDON HOSPITAL.—Strangulated hernia in aged males; recovery, 79—Aphasia with hemiplegia of the left side, 316—Paralysis of third, fifth, sixth, and seventh cranial nerves, 406, 813—Acute rheumatism complicated with delirium tremens; recovery, 488—Lightning concussion, 751

METROPOLITAN FREE HOSPITAL.—Monocystic disease of the ovary; ovariotomy; ligatured pedicle returned into the abdomen; recovery, 697—Fatty tumour; excision; immediate union, ib.

MIDDLESEX HOSPITAL.—Cases treated in the outpatient cancer department, 129—Treatment of muscular rheumatism, 347—Rapid destruction of the eye from inflammatory exudation; excision of the globe, 560—Disease of hip-joint treated by excision; recovery, 637—Scirrhus of the breast, the disease recurring in the gland after operation; second operation; recovery, 785

NATIONAL HOSPITAL FOR THE PARALYSED AND EPILEPTIC.—Convulsive attacks arrested by stopping the aura, 618

POPLAR HOSPITAL.—Poisoning by alcohol, 589

ROYAL FREE HOSPITAL.—Delayed union in fracture of the ulna; successful issue, 686—Recent displacement of false joint in an ununited fracture of the femur; excision of joint; insertion of ivory peg; death from pyæmia, 720

ROYAL HOSPITAL FOR DISEASES OF THE CHEST, CITY-ROAD.—Case illustrating the use of the ophthalmoscope in medical diagnosis, 161

ST. BARTHOLOMEW'S HOSPITAL.—Treatment of ulcer of the leg, 45—Treatment of the morning sickness of pregnancy, 255

ST. GEORGE'S HOSPITAL.—Encephaloid disease of the liver; rapid deposit, 12—Two cases of abscess of the brain after injury, 87—A case of hanging; death from the secondary effects, 285—Chronic osteo-arthritis, 500—Anomalous nervous disorder, 657

ST. MARY'S HOSPITAL.—Hæmatemesis, 12—Treatment of ulcer of the leg, 49—A case of peritonitis; recovery, 315—Treatment of muscular rheumatism, 347—Fracture of pelvis, tibiæ, and fibulæ; laceration of bladder; double amputation; death, 370—Treatment of rheumatic fever, 616

ST. THOMAS'S HOSPITAL.—Treatment of muscular rheumatism, 348

UNIVERSITY COLLEGE HOSPITAL.—Treatment of ulcer of the leg, 49—Four cases of lithotrity, 192—Treatment of the morning sickness of pregnancy, 256—Long-continued syphilis; its transmission to two children; elevated tongue cured by a prolonged mercurial course, 314—Successful results of lithotrity, 490—Large recurrent tumour of the face; removal; recovery; subsequent erysipelas and death from pyæmia, 588—Acute rheumatism; high temperature; sudden death; post-mortem appearances, 750

WEST LONDON HOSPITAL.—Chronic renal disease, and hypertrophy of heart; extravasation of blood beneath the dura mater, 254

WESTMINSTER HOSPITAL.—Three cases of injury to the head, 128—Stricture of urethra of twelve years' duration treatment by retaining a gum-elastic catheter; subsequent operation by immediate dilatation; recovery, 655—Two cases in which flexible bougies were broken in the urethra and bladder during the treatment of stricture of the urethra, 784

Moorman, Dr. W., professional combinations and the club system, 304; the new Vaccination Act, 609

Morris, Dr. F. H., on uterine hydatids, 313

Moses, Mr. F. H., report of a case of stercoraceous vomiting which continued for seventeen days, 284

Mouat, Inspector-General, retirement of, on half-pay, 271, 305, 290, 350, 361

Moutarde en feuilles de Rigollot, 270

Mudd, Dr., of Maryland, 31

Muir, Dr., 634

Murchison, Dr. C., on enlargements of the liver, 277
